

FOOTWEAR

# CHELSEA BOOT CONSTRUCTION

**STEEL TOE CAP**  
Complies with the SANS/ISO 20345 specification to withstand an impact load of 200 joules. Fashionable beveled wall gives a wide fit to accommodate most South African feet.

**LEATHER UPPER**  
Full grain quality buffalo leather. Tanned for a softer, more comfortable feel.

**ELASTIC SIDE GUSSETS**  
Offers additional comfort and ankle support to the wearer.

**LEATHER PULL TAB**  
Incorporated into the body of the boot to ensure strength and durability.

**DOUBLE NEEDLE STITCHING**  
For endurance.

Also Available In Non Steel Toe Cap options

**CUSHIONED MIDSOLE**  
Low density, flexible polyurethane for light comfort and shock absorption.

**SHANK**  
A reinforcement moulded into the midsole to give additional support under the arch of the foot. Provides stability, ensuring the footwear flexes in the correct place.

**INNERSOLE**  
Removable innersole made from 100% wool, treated with anti-fungal and anti-bacterial properties to prevent foot odour.

**OUTERSOLE**  
Thermal polyurethane with anti-slip, oil and acid resistant properties. It is anti-static and withstands temperatures up to 95°C.

## NON STEEL TOE CAP CHELSEA BOOT/JN506

**FABRIC:** Full Grain Buffalo Leather

Oil And Acid Resistant Sole

## SERIOUS SAFETY FOR YOUR FEET

Industries such as mining and construction are inherent with potential dangers, and therefore reliable safety footwear is crucial.

Our Steel Toe Cap Gumboots are one of the ultimate forms of safety footwear. Not only do they safeguard the wearer from falling objects, but they also guard feet against potential injuries caused by the penetration of the sole of the boot. Furthermore, these boots offer protection against wet environments, infected waters or chemicals.

Proper hygiene is of the utmost importance. This is because sweat cannot be absorbed by the PVC and the combination of heat and sweat is a potential breeding ground for bacteria and germs. It is also crucial to wear a good quality sock that can absorb perspiration and can be washed daily.

### SABS APPROVED STEEL TOE CAP GUMBOOT/JGBSTC

**FABRIC:** Virgin PVC

**SIZES:** 5 6 7 8 9 10 11 12

**COLOURS:** Black

Knee length PVC gumboot / Complies to SABS 1320 - 1, Type 1, Class 1 / Moulded wide fit steel toe cap for protection / Steel midsole / Oil and acid resistant sole / Reinforced ankle pad for side impact protection / Shin reinforcement for optimum protection / Moulded wool innersole for comfort

**GUMBOOT CARE**

Foot hygiene is of particular importance when wearing gumboots. This is because sweat cannot be absorbed by PVC and when heat and sweat combine, germs and bacteria form rapidly.

*ROUTINE CARE:*

**THE INTERIOR**

The polyester inner sock lining of the Jonsson Workwear Gumboot allows for easy cleaning and quick drying. A mild disinfectant can be used in the interior of the gumboot, but it must be rinsed thoroughly and left to dry. The innersole may be taken out, and once loose dirt is removed, it can be washed with mild soap and water and left out to dry.

**THE EXTERIOR**

The outside of the gumboot can be washed with mild soap and water. Chemicals and solvents should never be used, as these will cause the gumboot to become brittle and crack.

**THE TREAD**

To remove soil build up in the tread pattern of the sole, use mild soap, water and a scrubbing brush.

**IMPORTANT!**

NEVER use heat to accelerate the drying process.

**ANKLE GUMBOOT/JABT**

**FABRIC:** Recycled PVC upper / Virgin PVC sole

**SIZES:** 4 5 6 7 8 9 10 11 12

**COLOURS:** Black

Recycled black PVC with flex resistance to avoid surface cracking / Ergonomically designed / UV stabilized PVC to maintain colour durability / Virgin PVC, non-slip, hard wearing sole with strong grip / Superior 100% polyester sock lining / Flexible tread pattern to eliminate surface build up / SABS mould / Moulded wool innersole for comfort
