Like a diamond, women have many facets which is why Shu! incorporates both femininity and functionality into its products. Shu! offers safety footwear designed specifically for women. It is a brand that knows women are capable and ambitious, and should not be limited by their job or workspace. The brand's safety footwear offers comfort for both the broader and narrower foot without sacrificing style. By incorporating the narrower-style as well as the broader-styled ranges, women in industry now have a choice in stylish and functional safety footwear.

**Fuel** - is the real South African. Hardworking, trusted and reliable - gets the job done. Fuel is the brand that adds character and substance to a hardworking individual. It is about putting on what you want to get out. It's about having initiative and pursuing new skills - not about sitting down for the free ride. It's about willing to go for high risk and high responsibility. It's about being a specialist - the go to guy. It's about doing the things ordinary people wont...

## HEAT SAFETY
